Study Tour: Karnataka Milk Federation (KMF)

A group of students from SECAB ARSI Women's Degree College, accompanied by faculty members, embarked on a study tour of the Karnataka Milk Federation (KMF) on 30th October 2025. The tour aimed to provide students with an insight into the operations and management of KMF, one of the largest dairy cooperatives in India. The tour began with an introduction to KMF's history, mission, and objectives.

Students observed the milk processing and packaging operations, including quality control measures. The team visited the manufacturing units for various dairy products, such as milk, butter, ghee, and cheese.

The study tour of KMF was an enriching experience, providing students with practical knowledge and industry insights. The tour helped bridge the gap between academic learning and industry practices.
